

Stewards information n°3

Concern: Technical Regulation Article 5.10

During the last CIK COMMISSION meeting (September 13th) the Commission validate the modification of article 5.10 of the Technical Regulation.

The new text is:

5.10 Exhaust

*The exhaust must be made of magnetic steel in all categories.
Minimum sheet metal thickness is 0.75 mm if not otherwise specified in the HF.*

In Groups 1, 2 & 3, the exhaust system must discharge behind the driver and not operate at a height of more than 45 cm from the ground.

It is mandatory for the exhaust to pass rearward and not cross the plane defined by the driver seated in the normal driving position.

The exhaust silencer outlet, of which the external diameter must be more than 3 cm, must not exceed the outer limits of the kart.

The Stewards may authorise the Scrutineers to exchange the exhaust system of a driver/entrant for the system supplied by the CIK-FIA or the ASN concerned (same model).

~~The Stewards of the Meeting may authorise an entrant to exchange his exhaust system for the system supplied by the CIK-FIA or the ASN concerned (same homologated model).~~
