**Shenington 21 – 23 July 2023.**

**Event Bulletin 07 – Technical IAME**

**Alternative Rain Cover IAME X30 Junior & Senior**

Current Regulation

(ii) A wet-box as supplied by IAME (part no. A-61700) may be attached to the inlet silencer; it may be adapted provided that it in no way modifies the shape or size of the inlet trumpet or creates a ram effect. The inlet silencer cannot be modified to aid in the attachment of a wet-box or splashguard and the attachment must be of a non-permanent type, e.g. tape or cable ties

In addition to the above inlet silencer there is an option to use an alternative component the details of which are listed below.

**Reason:**

IAME UK have confirmed that with immediate effect the old unit has now been discontinued and replaced with the item below - see page 2:

Homologation No.:
