	lowest score on pole. In the event of a tie the higher grid position will be decided from the classification of timed
	qualifying. To determined grid positions where there is more than one timed qualifying session and the fastest average
	time achieved in the slowest session is not more than 101% of the fastest average time achieved in the faster session,
	then the classification will be determined by the order of the fastest average times achieved by each driver.
