GRID ASSEMBLY

- For Timed Qualification each driver will be allocated a starting grid slot on the Dummy Grid. For round 1 this will be a random grid slot, from Round 2 onwards it will be in Championship points order with 1st place in the Championship Standings taking the Pole position, 2nd in the standings taking 2nd place grid slot and so on, any new driver to the event/championship will be placed at the back of the grid in random order for their first round and then Championship order for their next round.
- For Race the Grid Gate closes 2 minutes prior to the end of the previous track action. Not on the grid on time = no Race.

DUMMY GRID

Please ensure you follow the instructions from the officials – also note:

If a driver is unable to start from the 'Dummy Grid' after the display of the green light/flag and he receives intervention from a mechanic, he will be authorized to leave the 'pre grid' only on the orders of the grid marshal or official and he/she must take the start from the back of the formation - irrespective of the number of rolling laps.

No working on the grid with tools (Tyre pressure checks only)

ROLLING LAP

In order to regain one's position, it is forbidden to use any course other than the track used during the race.

In the case of rolling starts, a Driver who is delayed will have the possibility of regaining his grid position only if this maneuver does not impede other Drivers and in all cases before having reached the yellow flag(s)

There will be yellow flags & lights at posts 8 & 9; no overtaking is permitted after post 8. Please keep a slow, steady, and constant speed and keep within the tram lines as you approach the start. Wait for the lights to go out then race on.
